

ARCHI-WORLD[®] ACADEMY AWARDS 2015/2017 - 3rd edition

After the increasing success of the two first editions (2011/2013 and 2013/2015) we are now entering the final phase of the third edition of the Archi-World[®] Academy Awards (www.awacademy.org).

Archi-World[®] Academy Awards is the only worldwide competition giving the opportunity for 12 deserving students to win a full paid prestigious traineeship in top architecture practices, helping them to boost their career!

This year we are proud of welcoming again 12 famous international practices* that will judge the student's work and select the 12 best projects.

The topic for this third edition is **Responsible Future Architecture!** and we are looking forward to receiving new amazing projects coming from around the world.

The deadline for presenting projects is **30 September 2016**.

Winners will be invited to attend the awarding ceremony taking place on 18 January 2017 in Munich during the International exhibition BAU in the presence of the jury members.

We would like to thank our partners Messe München, Foamglas, Saint-Gobain Glass, Kreon, Carrières du Hainaut and Vandersanden Group for actively supporting this event.

Complete information about Archi-World[®] Academy is available on <http://www.awacademy.org/>
